

Tantanoola Caves

Government
of South Australia

www.parks.sa.gov.au

Perfect all year round and only 20 minutes from Mount Gambier!

Tantanoola Cave is a highly decorated cavern found at the southern base of the remarkable 'Up and Down' cliffs. Formed from a mineralised pink and brown limestone called dolomite, the cliffs are a distinctive feature in themselves.

Tantanoola Cave is the perfect destination for the whole family and visitors can enjoy the cave at their leisure.

On arrival you will be greeted by your host at the visitor centre before being taken into the cave and given a personalised introduction. We would recommend allowing at least an hour for your self-guided tour (fees apply). Tantanoola Cave is wheelchair accessible so everyone has the opportunity to enjoy it.

Make sure you check out the interesting and informative interpretive displays in the visitor centre during your visit. Bring a picnic and some sturdy shoes so you can also discover what the wider park has to offer.

The 500 metre loop hike follows round the base of the cliffs, up through an old quarry to the top, where there are 360 degree views of the surrounding landscape.

Opening hours

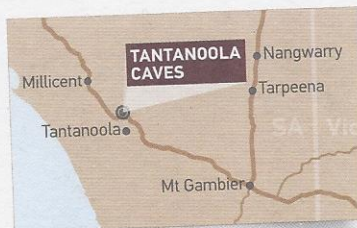

1 September – 30 April:
10 am-3 pm, 7 days a week.

1 May – 31 August:
10 am-3 pm on Saturday,
Sunday and Monday only.

Tantanoola Cave opens for SA and VIC school holidays and all public holidays except Christmas Day.

Location

Tantanoola Caves Conservation Park is located beside the Princes Hwy, halfway between Millicent and Mount Gambier, only 20 minutes drive from either town. The cave is a comfortable 17 degrees all year round making it the perfect winter getaway or a cool summer destination.
