## **PRESS RELEASE:**

### **WATTLE RANGE COUNCIL**

#### **CONSTRUCTION OF INFORMATION BAY**

Wattle Range Council has commenced work on an information bay and town entrance statement on Rendelsham Road near the Williams Road intersection in Millicent.

The first stage of this project was the construction of a pull off road which was completed earlier this year. The next step is the installation of an information bay similar to the structure on Adelaide Road, this is set to be erected in the near future. The final stage involves the construction of a town entrance wall of the same design as the wall which has been erected on Mount Gambier Road adjacent the Cemetery.

Council also plans to construct a town entrance wall on Adelaide Road in the vicinity of the existing information bay, clearly announcing 'Millicent' on each of the three major entrances into the town.

Construction of the entrance walls is intended to commence when weather conditions improve.

On completion of this project all three major roads will display an entrance wall and banner poles welcoming visitors to Millicent.
