must see, must do... *forestry through the ages*

Forestry is one of the largest industries in South Australia with Forestry SA managing approximately 64,000 hectares for commercial timber production in the South East of South Australia. The Nangwarry Forestry and Logging Museum is an iconic legacy to the growing timber industry with its Award Winning displays. The distinctive exhibition covers all aspects of the timber industry within and around the Limestone Coast and is the only one of its kind in the region.

The Museum features the following:-

- An original Bedford fire truck
- A Drag Saw, Swing Saw and a 2-man Chainsaw.
- A restored International crane truck
- Replica of Single men's quarters
- Milling, Plantation and Haulage photo displays
- First mechanical harvester in the South East

Other additions that make this unique exhibition a 'must see, must do' include an array of mill machinery and artefacts, historical maps, videos and priceless photographs from a bygone era. Allow at least 90 minutes to see it all.
